- 22- The head of the regional seminar of accounting and auditing changes and necessities in the two last decades in Marand, 2006

### Thesis( research director)

1. Investigating the effect of different levels of peribiotic on functional parameters, survival rate and carcass quality in rainbow trout .
2. Effects of different Levels of Replacement of Phytoplankton Spirulina with Soybean Meal in feed of Rainbow trout
3. Effects of replacing rapeseed oil instead of soybean oil on the biometry and physiology of enzymatic changes in the blood and intestines of salmonidea
4. Effects of replacing sunflower seeds instead of soybean oil on biometry and physiology of enzymatic changes in blood and intestine of rainbow trout
5. Investigation of the Remaining of Heavy Metals in Elamed River Fish meat (ciprinus spp.) of the Year2018
6. Investigating the addition of propolis on the shelf-life and reducing the microbial load of fish food
7. Investigating the effect of increasing the amount of propolis on salmon fish feed from 100 to 300 grams in fish immunity
8. Determine the standard of barbos fish keeping based on the amount of MDA in the freeze mode
9. Study of changes in uric acid and peroxide value. TVN and moisture with T4 changes in rainbow 600-800 grams and 800 -1000 gram.
10. Study on the correlation of TP GLU URIC ACID levels with serumT4 values in Rainbow trout 2018
11. comparison of MDA in Mugilidea fish in order to definition standard retention time at -18. 2018
12. studying the amount of heavy metals(Hg-Pb)in the muscular tissue *in Chalcalburnus chalcoides* of the sepidrood Guilan .2018
13. comparison of MDA as a refrigerating indicator in Sirbot Benny Hemry Gattann some Barbus fish in karon river 2016

### Books:

1. Translation and compilation of "dietary pathology of bred fish"/ published.
2. Translation of "aquatics behavior"/ published.
3. Translation and compilation of "Child and Fish" / published.
4. The compilation of "fishing with lovely cat Garfield "/ published.
5. The compilation of "the life of rainbow trout" published.

Saeed Ghaemmaghami

Veterinarian Phd DVM ( Aqua health and disease)

Assistant profesor

Islamic Azad university Shabestar East Azerbaijan, I.R. Iran

dr.ghaemmaghami@gmail.com

6. The compilation of the book" khazar sea fish identification " /being edited.
7. The compilation of "Tropical Fresh water fish aquariums" / being edited.

## Symposioms

1. Identification and optimal use of rural water potential in order to cultivate and its role in promoting the economic, social and cultural level of rural communities in Aegean province iran shabestar 2010
2. Investigation of the contamination rate of slaughtered goats in Baneh slaughterhouse with hydatid cyst miyaneh iran 2010
3. Investigation of the causes of sclerosis and lordosis reported from Bostanabad Salmon Field iran 2010 Sabestar Iran
4. Study of the effect of age and sex in blood cells count on Japanese quail .2010 Shabestar
- 5- Antibacterial effect of basil(ocimum basillicum l.) on some pathogenic bacteria Shiraz Iran 2009

## Awards:

- 1-Top student deputy of the country and receiving the appreciation tablet and the prize in 2007
- 2- THE BEST head of student deputy in 2008
- 2-ITEX07 getting the first place and gold medal of inventions and discoveries in Malaysia.2007
- 3-Getting the especial awardes of inventions and discoveries in Thailand ,with the co-inventor: engineer Talesh, in 2007.

## Teaching experience

Shabestar university of veterinary medicine science

- 1- Ichtiology for DVM student 3credit
- 2- Aquaculture for DVM student 2 credit
- 3- Fish disease for DVM student 2 credit
- 4- Fish culture for processing manager Bse student 2 credit
- 5- Aquacuture for MS animal science student 2 credit
